

MICROSOFT OFFICE 365

SIAX Computing Solutions can offer your business a simple, safe and easy Office 365 experience.

Office 365 gives you the familiarity and power of Office with the flexibility of the cloud. With Office in the cloud, your applications, files and emails are with you wherever you go, whether you're working offline at your desktop, online, or on one of your devices.

Edit files at your PC or Mac. Email or share files from your tablet. Join an online meeting from your phone. What you need is accessible from anywhere, right up front, and always up to date.

Office 365 gives you the freedom to work on the go, across all your devices.

Whether you are a small, mid-sized or large business, we can specifically design and implement your Microsoft Office 365 package, then incorporate your subscription into current agreement or a standalone arrangement.

Just another way, SIAX Computing Solutions has invested in our time and resources so you don't have to!

Office 365 is cloud-based productivity, hosted by Microsoft.

With Office 365, you get the latest Office applications – and much more.

At its heart is Office itself—the familiar Office applications businesses use everyday—now offered as a cloud service, so it’s always up to date. But Office 365 is also so much more. It’s about bringing enterprise-grade services to organizations of all sizes, from online meetings to sharing documents to business-class email.

-  **Always up-to-date.** Never buy a new version of Office again!
-  Each user can install Office on up to 5 PCs or Macs.
-  **Save to the cloud** for backup and anywhere access.
-  Use Office on your **smartphone and tablet.**

 **Business-class email** Gain large, 50GB mailboxes that can send messages up to 25MB in size, with contacts shared calendars, and spam and malware protection that stays up to date. Built with Exchange email technology, the leading email solution for business around the world. Use your own custom domain for your professional email address, connect with Outlook for fully featured offline support, and access email via any modern web browser. Available on your PC or Mac, as well as Windows Phone, iPhone, Android, and Blackberry devices.

 **Online meetings** Hold scheduled or ad hoc online meetings for up to 250 participants, with screen sharing, audio and video, virtual whiteboards, polls, and shared notes. Partners and customers can fully participate through any HTML5 browser.

 **Online document storage and file sharing** Get 1TB of space in the cloud to store, backup and easily share files. Files are accessible from almost any device, also synchronized offline and available without an internet connection.

 **Private social networking and collaboration** Set up a social network that helps your company stay connected, share information across teams, and make faster, more informed decisions.

 **Technical support** Have confidence knowing that your Office 365 subscription comes with 24/7 technical support by a global network of experts, with 1 hour response time for critical, service impacting events.

 **Simplified IT Management** Reduce headaches by reducing your IT infrastructure. Content lives safely in globally distributed datacenters with continuous backup and disaster recovery abilities.

 **Financially backed SLA** Get peace of mind knowing your services are available when you need them with a financially-backed 99.9% uptime service level agreement.

Office 365 changes how work is done...

Get work done from anywhere Wherever your people are, online or offline, they can get to—and work with—the most up-to-date versions of the files and tools they need to get things done. And they can do it on virtually any device.

Work better together—simply Office 365 offers business-class email, shared calendars, IM, web conferencing, and access to the most up-to-date documents stored in the cloud. You can work together in real time without compromising security.

...and how companies consume IT.

Reduce your capital expenditure Office 365 is available as a simple monthly subscription. Avoid large up-front costs for new software while moving the cost of IT from capital to operating expense.

Be always up to date Since Office 365 is in the cloud, it is always up to date. No patches or software upgrades necessary. Microsoft is adding new value and capabilities on a monthly basis.

Cut hardware and energy costs Without servers to run for email, websites, and document storage, you can reduce energy costs and save by no longer purchasing new server hardware.

License per user Simplify licensing while providing each user access to business critical technology on 5 PCs/Macs and 5 mobile devices. Save money when compared to traditional, per device licensing.

Scale your business quickly Office 365 grows with you. Adding a new user is as simple as buying an additional license.

License what you need Office 365 provides many plans to fit the right capability needs and price points for each user in your organization.
